ABOUT ME

I am an Electronics and Communication Engineering student with a strong interest in Software Development and practical problem-solving. I have hands-on experience in Python, Web Development, SQL, and IoT through academic projects and internships. I enjoy building real-world projects, learning new technologies, and continuously improving my technical and problem-solving skills. I am particularly interested in developing industry-ready applications and gaining practical experience in a professional technology environment.

EDUCATION

K.L.S. Vishwanathrao Deshpande Institute of Technology <i>B.E., Electronics and Communication Engineering Jan 2023 – Jan 2027</i>	CGPA: 8.9/10
Dr. R. B. Patil Mahesh PU College, Hubli <i>Senior Secondary (XII)</i>	83.00%
Vidyashree Education Trust, Kunoor <i>Secondary (X)</i>	97.90%

SKILLS

Python • C++ • JavaScript • SQL • Embedded C/C++ • HTML5 • CSS3 • PHP • MySQL • Basic Machine Learning • Scikit-learn • Tkinter • Arduino • ESP32 • ESP8266 • Sensor Interfacing • IoT • Wi-Fi Communication • Problem Solving • Logical Thinking • Teamwork • Time Management

TOOLS

VS Code • Git • GitHub • XAMPP • phpMyAdmin • Arduino IDE • Matplotlib

INTERNSHIP EXPERIENCE

Python Programming Intern | CodeOrbit

- Completed a virtual internship and developed 3 Python-based projects, strengthening programming and problem-solving skills.

Artificial Intelligence Intern | DecodeLabs

- Worked on AI/ML projects including Iris Flower Classification using Python, Scikit-learn, data visualization, and Tkinter GUI.

Machine Learning Intern | CodeAlpha

- Completed a virtual Machine Learning internship and gained hands-on experience with Python and machine learning concepts.

PROJECTS

PortfolioForge | Full-Stack Web Application

- Developed a web-based platform for creating and managing professional portfolios with user authentication, profile management, project details, and database integration.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Iris Flower Classification | Machine Learning

- Developed a machine learning application to classify Iris flowers using a Decision Tree model. Created data visualizations and a Tkinter GUI for user predictions.

Technologies: Python, Scikit-learn, Tkinter, Matplotlib

Python Programming Projects | CodeOrbit

- Developed three Python-based applications during the internship, strengthening programming, problem-solving, and application development skills.

Technologies: Python

EXTRA-CURRICULAR ACTIVITIES

- Participated in the Pleiades Project Exhibition and presented a technical project.
- Participated in the Insignia Hackathon conducted by SDMCET, Dharwad.
- Played volleyball, demonstrating teamwork and coordination.
